

# PVC PANEL WIRES

## J13 PVC Panel Wires - Tinned Conductors

- a. Multistrand tinned copper conductors
- b. PVC insulation
  
- 750V max. working voltage (r.m.s.)
- Temp.rating: 0°C to +80 °C
- XX - indicate wire colour required
- Bi-colour insulations also available

Flexible connecting wire for internal wiring of electronic and other equipment. The tinplating on the conductors provides for ease of soldering and limits corrosion on the conductors.

| Jaycor Part Number | Conductor Size (mm <sup>2</sup> ) | Strandings No / mm | Nominal O.D. (mm) |
