

PRICE UPDATE NOTIFICATION

1st February 2022

Dear JAYCOR customer

Due to factors, including general inflation, raw material price increases, supplier price increases, significant increases in the cost of freight-forwarding, and the general instability and weakening of the South African currency, we unfortunately will be increasing prices of our products.

Belden Inc. have announced price increase between 3.5% and 12% depending on the product line, effective January 2022. LEMO have announced upcoming prices increase of 7.5% effective March 2022. Other key local and international brands and manufactures have also announced price increases.

We thank you for your continued support and appreciate your understanding in this matter and be assured of our continued efforts to keep price increases as low as possible.

Should you have any questions, feel free to communicate with your relevant sales representative accordingly, or you are most welcome to contact me at any time.

Kind regards

Greg Pokroy  
Chief Executive Officer
